

Serial No. 10/796,697
Art Unit: 1616

REMARKS

Applicants herewith elect with traverse the species of claim 39 for examination in the application. All of the claims with the exception of claims 16 and 29 read on the elected species of new claim 39. Claim 14 has been amended to correct the spelling of functionality.

Applicants respectfully request that the requirement for an election of species be reconsidered and withdrawn. The composition contains four critical components. That is, water, the oil component, the hydrophobic emulsifier and the alkylpolyglycoside. All of the components in the composition are well known and can be readily searched. As set forth in the specification, the useful oils comprise a limited group as do the alkylpolyglycosides and the lipophilic co-emulsifier. Applicants therefore respectfully request that the requirement for election of species be reconsidered and withdrawn.

Respectfully submitted,

REMARKS

Applicants herewith elect with traverse the species of claim 39 for examination in the application. All of the claims with the exception of claims 16 and 29 read on the elected species of ^{new}claim 39. *Claim 14 has been amended to correct spelling of functionality.*

Applicants respectfully request that the requirement for an election of species be reconsidered and withdrawn. The composition contains ^{four}~~three~~ critical components. That is, ^{water,}~~the~~ the oil component, the hydrophobic emulsifier and the alkylpolyglycoside. All of the components in the composition are well known and can be readily searched. As set forth in the specification, the useful oils comprise a limited group as do the alkylpolyglycosides and the lipophilic co-emulsifier. Applicants therefore respectfully request that the requirement for election of species be reconsidered and withdrawn.

Respectfully submitted,
